Tech enthusiast, coding wizard and problem solver. Passionate about working with teams to create innovative solutions to complex challenges.

EXPERIENCE

MEMBER

Enactus VIPS | Delhi | Jan 2023 - on going

As a member of the Enactus society at my college, I have participated in projects and initiatives that address a variety of social and environmental issues, such as poverty, and sustainable development. Through my involvement in Enactus, I have developed skills in project management, teamwork, and communication, while also contributing to making a difference in my community.

PROJECTS

- A Website for automating billing and inventory management for Enactus VIPS . GitHub repo link

- A basic calculator to demonstrate HTML and CSS skills. GitHub repo link

- A basic Flutter application for appointment booking, my first android/IOS application. GitHub repo link.

- A Flutter application to show weather details at current position, a good animation using lottiefiles. GitHub repo link.

- An aesthetic android application for note taking (Keep Notes clone). GitHub Repo link
